

REACH⁺ – New Career and Educational Guidance Programme for Senior Cycle

Dear Guidance Counsellor,

This new innovative programme, **REACH⁺** has evolved from the feedback we have received from Guidance Counsellors using CareersPortal.ie and other online resources over the past two years.

It is a comprehensive programme of career and educational guidance spanning TY through to 6th year. It uses classroom based learning in the form of student workbooks alongside online activities using a newly developed REACH section on the CareersPortal website. Optimal use of the programme is realised when both workbooks and online activities are used.

The programme is activity based – learning by doing. It encourages class interaction, co-operative learning and reflective thinking. It has been designed to be engaging – using questionnaires, inventories, action plans, assignments and supporting videos. Activities have corresponding lesson plans drawn up by Guidance Counsellors.

Students are encouraged to record their progress throughout the programme, and information stored online is accessible to Guidance Counsellors through their own private area of the website. From within this area, a students' progress over a range of modules can be easily monitored and tracked, and reports can be viewed or printed as required.

This programme will be available to all secondary schools in September 2010. The programme involves the purchase of workbooks by students. Students require just one workbook to cover senior cycle (2 – 3 years depending on whether they take TY). The online tracking facility is available only to schools participating in the programme, and is free. The programme is completely modular – the Guidance Counsellor chooses which modules to use, with who, and when.

Workbooks ordered before the 1st of June will be delivered to schools in the first week of September.

Please refer to the enclosed flyers for more details about the programme. Please don't hesitate to contact us at 01-4402314 for further information, or email us at reach@careersportal.ie
